

ARJUN KUMAR

Backend Developer | Node.js, Express.js & PHP/Laravel

+91-9041555676 | arjun01ar@gmail.com | SBS Nagar, Punjab, India

PROFESSIONAL SUMMARY

Backend Developer with 9+ years of experience building scalable web applications, RESTful APIs, database-driven systems, eCommerce platforms, and third-party integrations. Hands-on experience with Node.js, Express.js, and Socket.IO for backend services and real-time features, alongside deep expertise in PHP, Laravel, MySQL, CakePHP, CodeIgniter, and Yii. Additional experience with MongoDB, React.js, Stripe, PayPal, and webhook-based integrations.

TECHNICAL SKILLS

Backend: Node.js, Express.js, Socket.IO, PHP, Laravel, Core PHP, CodeIgniter, CakePHP, Yii

Database: MongoDB, MySQL

Frontend: JavaScript, React.js

APIs & Integrations: RESTful APIs, Shopify API, Stripe API, PayPal API, Ship24 API, Google API, Facebook API

Architecture: MVC, Backend Development, Database Design, Query Optimization, API Development, Background Jobs

Tools: GitHub, GitLab, Bitbucket

AI/Emerging Tech: GenAI

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Luminoguru Pvt Ltd | Mohali | 09/2022 - Present

- Built lightweight backend services and real-time features using Node.js.
- Created a chat application with real-time messaging using Socket.IO.
- Develop and maintain web applications using PHP, Laravel, and MySQL with emphasis on performance, security, and maintainability.
- Develop and maintain Shopify websites and applications and integrate Shopify APIs for eCommerce functionality.
- Customize and optimize WordPress plugins to meet client-specific requirements.
- Debug application issues, identify root causes, and implement reliable solutions.

Software Developer | Betasoft Solutions Pvt Ltd | Mohali | 07/2021 - 09/2022

- Developed and maintained backend applications and REST APIs using Laravel.
- Optimized MySQL database performance and application workflows.
- Developed client applications using Laravel, CodeIgniter, and CakePHP.
- Implemented backend functionality and resolved application issues.

Laravel Developer | Canvas Craft Media | Mohali | 03/2020 - 08/2020

- Developed and maintained web applications using PHP, Laravel, and MySQL.
- Implemented backend business logic, database integration, and application enhancements.
- Designed and optimized MySQL queries and database operations to improve application performance.
- Developed features based on client and project requirements and resolved application issues.

PHP Backend Developer | Outsourcing Technologies | Panchkula | 08/2018 - 02/2020

- Developed web applications using WordPress, CodeIgniter, and Core PHP.
- Built dynamic, database-driven websites and applications based on client requirements.
- Implemented backend business logic and MySQL database integration.
- Developed applications using CodeIgniter MVC and customized WordPress websites.
- Performed bug fixing, application enhancements, and performance optimization.

PHP Developer | Trius Infotech | Chandigarh | 10/2017 - 07/2018

- Developed and maintained web applications using CakePHP and Yii frameworks.
- Developed RESTful APIs using CakePHP for application and system integration.
- Implemented backend business logic and database-driven application functionality.
- Worked with MySQL queries, data management, and MVC architecture.
- Implemented features, enhancements, debugging, and issue resolution.

PHP Developer | Sites Simply Pvt Ltd | Mohali | 11/2016 - 06/2017

- Developed and maintained web applications using CakePHP and WordPress.
- Built backend functionality using CakePHP MVC architecture and MySQL.
- Implemented business logic, database integration, and application enhancements.
- Customized WordPress websites and implemented client-specific features.
- Resolved application bugs and performance-related issues.

Junior PHP Developer | Oditi Global Solutions Pvt Ltd | Mohali | 10/2015 - 10/2016

- Developed and maintained web applications using Core PHP, CakePHP, CodeIgniter, WordPress, and MySQL.
- Assisted with backend development, business logic, and database integration.
- Developed application features using CakePHP and CodeIgniter MVC frameworks.

KEY PROJECTS

Chat App - Real-Time Messaging Application

- Developed a real-time chat application using Node.js and Express.js for backend logic and API handling.
- Designed MongoDB schemas to store users, conversations, and message history.
- Implemented real-time messaging using Socket.IO for instant message delivery between users.
- Implemented user authentication and session management for secure access to chats.
- Technologies: Node.js, Express.js, Socket.IO, MongoDB, HTML, CSS, JavaScript

BiteRite - Calorie Tracking & Meal Planning App

- Developed BiteRite, a complete calorie-tracking application offering dietitian-approved recipes and personalized meal plans.
- Built backend services using Node.js and Laravel, with MySQL for relational data storage.
- Integrated a real-time chat feature enabling direct communication between users and admin.
- Implemented personalized meal planning and recipe recommendation features based on user dietary goals.
- Technologies: Node.js, Laravel, MySQL
